

Types of iPad Apps for Installation

When searching through the App Store or iTunes to download apps for the classroom, it's important to recognize the different types of apps available to determine if the installation best fits the scenario* in which you use iPads in WSSD classrooms. Below is a breakdown of the four main types of apps you will find when reviewing information provided by any preview link to the iTunes store online - <https://itunes.apple.com/us/app/thinking-blocks-addition/id668450919?mt=8> – or while searching the App Store on an iPad. *NOTE: Please refer to the scenario chart found in the Technology Resources folder on the U Drive in the iPad folder and at www.wssd.org/ipads.

FREE APPS	LITE APPS	FREE APPS WITH IN-APP PURCHASES	PAID APPS										
<p>An app that has no cost at the time of installation or additional purchases necessary once the app is installed.</p> <p>- Available for all WSSD iPads</p> <p>Example:</p> 	<p>An abbreviated version of an iPad app. The lite version (light version) may have limited functionality or be supported by advertisements, or both. Lite versions typically have no tech support. Upgrading to the full version for a fee eliminates the ads or invokes more program features, and tech support maybe provided.</p> <p>- Available for all WSSD iPads</p> <p>Example:</p> 	<p>In-app purchases are purchases made from within a free app. Users typically make an in-app purchase in order to access special content or features in an app. The purchasing process is completed directly from within the app.</p> <p>- Available for all WSSD iPads, EXCEPT those on shared carts or Meraki-managed iPads</p> <p>Example:</p>   <table border="1" data-bbox="1171 1263 1503 1438"> <thead> <tr> <th colspan="2">Top In-App Purchases</th> </tr> </thead> <tbody> <tr> <td>1.
