Lesson Goal: Create a Self-Portrait.

Look at these two self-portraits by the Mexican Artist Frida Kahlo. Think of answers to the following questions:

- What expression does she have in her self-portraits?
- What has she included?
- What do you think the self-portraits say about her?
- All about you! - What will I wear and include in my self-portrait?
- What do you want your self-portrait to say about you?

Directions: To start your portrait draw an oval near the middle of the paper, then a half circle for the shoulders on the bottom of the paper. Then draw two parallel lines to make a neck that connects the oval to the half circle.

Details:

You can look in a mirror and copy your facial features or you can draw them from your memory. Add any pets, toys or objects that you want to personalize your self-portrait. For your background you can use your favorite color or have your favorite place behind you.
