

# CITY-STATE PROJECT

Follow the examples shown in class to create a diagram map of a typical Mesopotamian city-state. You must place the items in the correct location and include a key that contains the definitions or descriptions of each item.

This project is worth 40 points. You need to name your city-state, be neat, colorful and have complete, error free definitions.

Items to include in your map:

Ziggurat

River

Irrigation system

Farms

Protective wall

Upper class homes

Middle class homes

Lower class homes

Courts

Streets

Priests

Merchants

Farmers

Gate
