

PARENT INFORMATION NIGHT

HOSTED BY:
THE OFFICE OF
STUDENT SERVICES

Please join us via Microsoft Teams at 6pm for our monthly Life Skills Training Parent Program.

This parenting program is a drug and alcohol prevention program in conjunction with our Botvin Guidance Curriculum for 3rd, 4th and 5th grade students in the elementary schools.

The mission of the curriculum is to introduce students to life skills and refusal skills at an early age, which will in turn teach basic drug resistance skills. The parent program provides parenting skills and an understanding of what the children are being taught at school to help prevent drug use and risky behaviors.

To attend our meetings click on the link [here](#) to join our Teams Channel and use it to join teams meetings for the following trainings listed below.
