

The Nutrition Group is WSSD's food service provider. Our mission is to satisfy customers and form fulfilled, trusting relationships one meal and facility at a time. We look forward to continuing to provide balanced breakfasts, lunches, and snacks for the 22-23 school year. **Please be advised that the federal waivers to provide free meals to all students during the Covid-19 pandemic have expired. Students may still be eligible to receive free or reduced-price meals—please visit the Food Services page on the school district website to apply!**

If you do not qualify for free or reduced-price meals, the price for breakfast is \$1.75, and the elementary school price for lunch is \$2.75. Students will need to enter their PIN at the register, and then pay with cash, check (made out to WSSD Food Services), or MySchoolBucks funds.

MySchoolBucks is a service that can be used to load money onto your student's account so that they can draw from it automatically at the register. Please visit the Food Services page on the school district website for more information.

The Nutrition Group is hiring! If you believe in caring for students through food and working as part of a team, we have various job opportunities open!

Please feel free to reach out to Kristen Mathieson, Director of Food and Nutrition, with any questions!
